electronic records management and pdf

electronic records management and preservation pose challenges Records management, also known as records and information management, is an organizational function devoted to the management of information in an organization throughout its life cycle, from the time of creation or inscription to its eventual disposition. This includes identifying, classifying, storing, securing, retrieving, tracking and destroying or permanently preserving records.

Records management - Wikipedia

electronic records management and preservation pose challenges Use. Electronic document and records management is used by organizations to manage documents and records throughout the document life-cycle, from creation to destruction.. Typically, systems consider a document or file to be a work-in-progress until it has undergone review, approval, lock-down, and (potentially) publication, where it will wait to be used.
