google sketchup reference guide This is a list of file formats used by computers, organized by type. Filename extensions are usually noted in parentheses if they differ from the file format name or abbreviation. Many operating systems do not limit filenames to one extension shorter than 4 characters, as was common with some operating systems that supported the File Allocation Table (FAT) file system.

google sketchup reference guide I designed the shell of the Facet in Google Sketchup, based on a design I obtained from a fellow in Belgium several years ago. After taking careful measurements of my Expedition, I re-sized and tweaked the shell to fit. After that, I unfolded the design in Pepakura.. I had full-size patterns printed on a plotter, then transferred those to large 4x8 foot sheets of Coroplast.
