learning by doing 2nd edition Learning styles refer to a range of competing and contested theories that aim to account for differences in individuals' learning. These theories propose that all people can be classified according to their 'style' of learning, although the various theories present differing views on how the styles should be defined and categorized.: 8 A common concept is that individuals differ in how they learn.

learning by doing 2nd edition Active learning is a form of learning in which teaching strives to involve students in the learning process more directly than in other methods.. Bonwell (1991) "states that in active learning, students participate in the process and students participate when they are doing something besides passively listening."
